His boss who is VP & sent me out with virus - maybe all week. I urged him to go to the Pres. of the Co. He visited with P. George in Nov 1971 in St. Louis. He wants Paton to call Bill Robinson. Re: Polychlorinated Biphenyls -
Liability Agreement

Dear Sir:

As per your letter of December 21, 1971, we are returning herewith a copy of the above agreement most reluctantly executed by Wayne Peterson, Executive Vice President, on behalf of our Cornell-Dubilier subsidiary.

It goes without saying that this agreement, if valid, is prospective in nature only.

Sincerely,

BERNARD S. CHESKIN
